

Revivarol Deglazer®

Powerful liquid deglazer cum conditioner for blanket maintenance

Description & Application

Revivarol Deglazer is a powerful liquid deglazer-cum-conditioner for blanket maintenance. It is also suitable for use on rollers.

Features & Benefits

- A blend of chosen solvents and plasticisers
- Penetrates deep into the pores of the rubber surface to dissolve and remove dried-up residue of varnish and pigments
- Revivarol Deglazer replaces the plasticisers which are removed during normal wash-up operations
- It should be used at least once a week to keep blankets and rollers in good condition
- Non-drying liquid with high flash point above 150°C

Usage Instructions

- On Blankets : Clean the blankets using a normal press wash. Apply Revivarol Deglazer with a dry, clean cloth, rubbing into the rubber surface.
For best results, allow contact for approximately 10 to 15 minutes. Wipe the blanket clean with a normal press wash. Finish with a clean damp cloth / sponge.
- On Rollers : Clean the rollers using a normal press wash. Disengage the wash-up blades and apply sufficient quantity of Revivarol Deglazer evenly cover the entire roller train. Run the machine for 3 to 5 minutes. For thorough deglazing, allow contact for approximately 10 to 15 minutes. Engage the wash-up blades and flush off residue with a normal press wash, followed by water. To prevent slipping of the non-gear driven rollers, it is advisable to clean one half of the rollers, followed by the other half.

Storage, Handling & Packaging

- Storage & Handling : Combustible liquid. Protect from direct sunlight. Store at moderate temperatures in a dry, well-ventilated area. Keep the containers tightly closed when not in use. The use of gloves is strongly recommended while handling petroleum hydrocarbon based press washes.
- Shelf-life : 12 months from the date of manufacture
- Packing : 1 litre
- Precautions : Keep away from sources of heat, sparks, open flame and static electricity charges. Revivarol Deglazer is not recommended for contact with the rubber rollers and blanket surface for more than 15 minutes. Post wash-up application of plain water is recommended as a finishing step for complete removal of the residue.

About Us

TechNova is one of the world's largest suppliers of print solutions. TechNova's innovative and world-class products cater to a wide range of industries, such as Commercial & Newspaper Printing, Publishing, Packaging, Signage, Photo, Textile, Engineering & Medical Imaging.

TechNova's name is derived from the words "technology" and "innovation", and it is these two tenets that form TechNova's core mission. Globally recognised as a pioneer, TechNova has introduced several breakthrough technologies and innovative products that have transformed various print processes and created new markets.

With its wide distribution and logistics network in India, TechNova's products & services are used by every printer in the country. In addition to its leadership position in India, TechNova markets its products to over 60 countries through its international offices and distribution network.

Uniting all of TechNova's businesses is its value system - a strict code of ethics, commitment to excellence, business conduct based on honesty, fairness & mutual trust, and a "Customer First" philosophy.

Highlights

- World's only manufacturer of full range of Digital Offset Plates : Violet, Thermal, UV, Inkjet & Laser
- India's largest manufacturer of Offset Plates & Printing Chemicals
- Widest portfolio of Digital Print Media for Inkjet & Laser
- 70% market share in India for each of its product groups
- IMS Certification : ISO 9001:2015 (QMS); ISO 14001:2015 (EMS); ISO 45001:2018 (OHS)
- Winner of the prestigious GATF InterTech Technology Award
- Pioneer of the "Go Green" revolution in the Indian print industry

Product Portfolio

- Offset Printing Plates
- Printing Chemicals
- Digital Print Media
- Thermal Platesetters & Processors
- Violet Platesetters & Processors
- UV Platesetters & Processors
- Inkjet Platesetters & Processors
- Digital Production Presses
- Digital Post-production Devices
- Software & Workflows
- Flexo & Letterpress Plates
- Waterless Plates
- Adhesives
- Printing Inks
- Printing Blankets & Underpackings
- Printing Rollers
- Press Enhancement Systems
- Value-added Services

TechNova's Go Green Mission

Our Planet is our most vital resource. We must do all we can to preserve it. TechNova is committed to helping the printing industry adopt eco-friendly solutions, reduce carbon footprint, eliminate waste and facilitate sustainable growth.

To help achieve this, we at TechNova have embarked on a "Go Green" mission :

- To promote Green awareness within TechNova, with our stakeholders and within the printing industry
- To develop, manufacture and supply eco-friendly Green products and services that have the least impact on the environment
- To comply with, and go beyond, all applicable legal requirements with regards to the environment and help our customers achieve the same.
