

imprint[®] | Rapid-Web

Versatile & Durable

Web Blanket suited for all press configurations

Features

- Tough top surface for low abrasion and reduced edge cutting
- Good release properties and consistent web feed
- Uniform calibrated thickness with minimal gauge loss
- Ideal surface roughness for optimum ink transfer
- Stable and durable compressible layer with excellent shock absorption and reboundability
- Innovative fabric constructions for low stretch, extra durability and long life

Specially designed, engineered and created with our innovative fabric constructions. Manufactured in-house by our team of textile technologists.

Printing Surface

	Colour	Green
	Surface Finish	Fine Ground & Buffed
	Surface Roughness (Ra)	0.90 µm
	Surface Roughness (Rz)	6.0 µm
	Ink Compatibility	Conventional

Imprint Rapid-Web : microscopic view

Physical Properties

	Thickness	1.70 mm
	Construction (No. of Fabric layers)	3 Ply
	Total Hardness	78 Shore A
	Compressible Layer	Closed Cell
	Compressibility @180N	180 µm
	Elongation @ 500N/50mm	≤ 0.75%
	Tensile Strength N/50mm	≥ 4000
	Identification Lines	Blue & Green
	Water & Solvent Protected/Sealed	Yes
	Feed Characteristics	Positive
